we are the one-stop supplier And Manufacturer in China for many different metal-parts With more than 10 years experience in the metal products

sales@china-machineparts.com

Machine parts

- Precision machining
- Industrial spare parts
- Engineering machine parts
- Marine metal parts
- Construction metal parts
- Precision machine parts
- Printing machine parts
- Embroidery machine parts
- All different machine parts
- Sewing machine parts
- Plastic machine parts
- Textile machine parts
- Mill machine parts
- Cutting machine parts
- CNC machine parts
- Custom machine parts
- Transmission components parts
- Screw Machine Parts

Casting parts

- Sand casting machining parts
- Gravity casting machining parts
- Pressure die casting part
- Investment casting machining parts
- Aluminum casting
- die casting machining parts

Stamping part

- Metal stamping parts
- Sheet metal stamping
- Stamping mold
- Iron stamping parts
- Steel stamping part

Ningbo Zhenhai XinXie Machinery Co.,Ltd. as a new investment casting foundry was founded in 2008, located in Ningbo of China, a flourishing harbor city, which is next to Shanghai port, serving as China's two biggest exporting ports. XinXie occupies an area of 7000 square meters, having around 80 employees, with an annual yield of USD 5 million.

Former XinXie Machinery was only dedicated to investment casting (also called precision casting). With 5 years of developing, XinXie has established a complete process of casting, machining and surface treatment with other succeeding mechanical services. In 2008, new XinXie was founded, focused on precision casting and precision machining. With continual investing on precision casting, we introduced advanced precision machining equipment, measuring and inspecting equipment. Those efforts improve our capability, and promote our service.

Our plant equipment

General Machining
CNC Machining

Grinding Machining
Overview

Our machining workshop is equipped with large horizontal boring mills, vertical and horizontal lathes and machining centers to meet all your machining requirements. Whether the parts are complex or simple, high or low volume, XinXie is capable of providing you with qualified products at competitive price and on time delivery.

Products processing

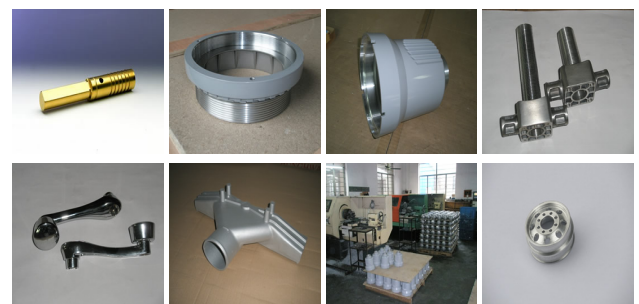

Stamping, Pressing, Fine blanking

Machining (Shaping, Planing, Reaming, Drilling, Tapping, Broaching, Sawing, Milling, Grinding, Honing, etc.)

Forging (Hot, Cold, Warm, Combination Forging)

Casting (Die-casting, Ductile iron, Semi-solid die-casting)

Available Materials: Carbon Steel, Stainless Steel, Aluminum, Brass, Magnesium Zinc, Plastic, Nylon, Gray Iron, Ductile Iron, Malleable Iron, or other Industrial materials

➤ Aluminum stamping part
➤ Brass stamping part
Extrusion part
➤ Brass extrusion parts
➤ Aluminum extrusion part
Forging parts
➤ Hot forging parts
➤ Cold forging parts
Power juicer
➤ PC 700

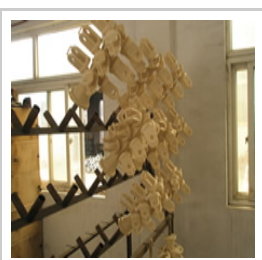

Ningbo Zhenhai Xinxie Machinery Co.,Ltd Key products

- Industrial Spare parts
- Engineering Machine parts
- Marine Metal parts
- Construction Metal parts
- Precision Machine parts
- Printing Machine parts
- Embroidery Machine parts
- All different Machine parts
- Machine parts
- Plastic Machine parts
- Textile Machine parts
- Mill Machine parts
- Cutting Machine parts
- CNC Machine parts
- Printing Machine parts
- Embroidery Machine parts
- Custom Machine parts

Cooperate factory equipment

Our cooperating factories cover foundries of ductile iron casting, grey iron casting, stainless steel casting, carbon steel casting, refractory steel casting, aluminum casting, zinc casting and copper casting, which are dispensed in Ningbo area with enormous capacity, and convenient for quality control.

Copper Castings

Brass Castings
Bronze Castings

Aluminum Castings

Zinc Aluminum Castings
Aluminum Machined

Iron Castings

Ductile Iron Castings
Gray Iron Castings

Steel Castings

Alloy Steel Castings
Stainless Steel Castings
